EDUCATION

UNIVERSITY OF VIRGINIA

M.S. in Teaching - Computer Science License

B.A. in Computer Science

GPA: 3.36

Charlottesville, VA

Class of 2019

Class of 2018

WORK EXPERIENCE

Programming Intern

July 2016 – August 2016

Morgan Borszcz Consulting

- Comprehensive database management and full stack development of a web application for the ECCN.

Technical Intern

May 2016 - July 2016

Sabel Systems Technology Solutions

- Worked on the front-end development and content management of web and software applications. Promoted to work at sister company to do full stack development.

Sales Associate, Team Member

2014 (Summer) August 2015 (Summer)

Loft, Abercrombie & Fitch, Pinkberry

- Summer jobs that require constant use and dedication to customer service and public speaking skills.
- Helped organize Pinkberry in Bristow opening and worked on bringing in a local and loyal customer base.

PROJECTS

Review Market Place (Fall 2016)

- Building a scalable web application that uses scalable web practices for a market place for leaving reviews of listings. Using latest technologies, such as Docker for environment staging and the Django framework. Building various APIs that interact with a SQL datastore. Will have knowledge of microservice architecture for web applications at the conclusion of this class project.

Game of Thrones Website Wiki

- Full stack web development project that displays information about GoT characters from a database.

Ghost Hunting Android Application

- Using the Google Maps API and local GPS – spawned random ghosts for players to capture. Built in an agile environment with a 4-person team.

USAID Website

- Internal tools development for a front-end of a project allows easy access to projects within USAID.

EXTRACURRICULARS AND INVOLVEMENTS

Madison House – Volunteer for Computer Literacy Program

- Assisted local Charlottesville clients with computer functionality to help obtain work (resume writing, job applications, emails, Microsoft Office).
- Providing one on one tutoring for software, following provided curriculum.

Abundant Life/CALM – Teaching Assistant

- Educational assistant for Walker Upper Elementary School – leading groups of students in preparations of core subjects and test preparation.

Challah for Hunger – Volunteer for Baking and Commerce Team

- Every Tuesday and Wednesday, help in the baking of challah that the organization sells at the University to raise money for local food shelters and international relief programs.

Student Council – Marketing and Communications Team - Member

- Create promotional items for student body wide events, such as flyers and videos. Strategize marketing plans.
